

NASHVILLE KIDNEY CARE

Questions for your Nephrologist

We understand that sometimes your doctor appointments can be overwhelming. We have all been there; having so many questions to ask your doctor and you get into the office and forget half of them. This is why we created this sheet. You can write down your questions before your appointment and then just bring this sheet with you so you don't forget any of them. Of course, if you have questions you didn't write down, or forget to ask, you can always call us after your appointment to follow up.

Write down your questions to ask:

Sample Questions:

- | | |
|--|--|
| <input type="checkbox"/> Why am I taking this medication(s)? | <input type="checkbox"/> What is my diagnosis? |
| <input type="checkbox"/> What are my dietary restrictions? | <input type="checkbox"/> How often should I get labs drawn? |
| <input type="checkbox"/> How often will I need to see my nephrologist? | |
| <input type="checkbox"/> What causes kidney disease? | <input type="checkbox"/> How will it affect my home/work life? |

Notes:
